SchureMed Narrow Head Rest Optional Wrist Rest | 800-0086

Stock Photo – Options May Vary

FACTORY NEW

SchureMed Narrow Head Rest Optional Wrist Rest: 800-0086. The Optional Wrist Rest adjusts 14″ vertically, with an inside diameter width that adjusts from 5″ to 11″ for a customizable fit.

The Narrow Head Rest is not included but is compatible for use with the wristrest. This wrist rest offers enhanced patient comfort and positioning, ideal for supporting the wrists during prolonged procedures.

The design provides additional stability and ease during surgery. The system requires the SchureMed One Simple Clamp (sold separately) for secure attachment and functionality, as outlined in the tab.

*Brochure and images are a general overview of the product. Actual product options may vary.
