

GE Carescape B450 Anesthesia Monitor - Refurbished

Stock Photo - Options May Vary

FULLY REFURBISHED · CLINICALLY CERTIFIED

The GE Carescape B450 Anesthesia Monitor is a lightweight, portable patient monitoring system weighing only 11 pounds, designed for use across multiple care settings including OR, PACU, NICU, Emergency Care, and Critical Care. Its compact design facilitates efficient intra-hospital transport while maintaining continuous patient monitoring during transfers.

The B450 monitors key parameters including ECG, SpO2, NIBP, CO2, IBP, and temperature, allowing clinicians to configure the system for specific patient populations and care environments. Optional wireless connectivity and HL7 protocol support enable seamless integration with many EMR systems, improving data accuracy and care coordination.

Built with rugged construction to withstand heavy use and cleaning, the monitor features a long-run-time rechargeable battery providing 8 to 11 hours of operation. Configurable software helps standardize monitoring across departments while supporting critical clinical decisions at the bedside.

FEATURES

- Functions: NIBP, Temp, Pulse Rate and SpO2
- Built-In Pole Mount
- Multi-Patient Monitor Capabilities
- Rugged to withstand heavy use and cleaning
- Long run-time rechargeable battery, 8 to 11 hours
- Maintains data when battery but
- 6 Months Parts and Labor Warranty
- New Battery

SPECIFICATIONS

- Functions: NIBP, Temp, Pulse Rate, SpO2
- Pole Mount: Built-In
- Capabilities: Multi-Patient
- Memory Storage
- Battery: Rechargeable
- Battery Run-Time: 8 to 11 hours
- 6 Month Parts and Labor Warranty
