Stryker 1005/SM104 – Replacement Stretcher Pad – 30″ x 75″ x 4″

Stock Photo – Options May Vary

FACTORY NEW

Stryker 1005/SM104 (M-Series) Replacement Stretcher Pad – 30″ x 75″ x 4″. This Stryker 1005/SM104 (M-Series) Replacement Stretcher Pad combines three layers of high-density, high-resilient, medical grade urethane foam. Additionally, this construction provides outstanding pressure redistribution, postural support, and comfort.

Furthermore, this durable stretcher pad helps take patient care to the next level. Also, the layered foam design helps maintain its shape over years of daily use. Moreover, we recommend this pad for facilities transporting a wide range of patients across busy departments.

As a result, staff gain a reliable surface that holds up under frequent use. Specifically, the medical grade foam resists compression, keeping patients comfortable during longer transport times.
