Skytron 6300 Standard Series Replacement Pad Set

Stock Photo – Options May Vary

FACTORY NEW

The Skytron 6300 Standard Series Replacement Pad Set suits low-risk patients undergoing short-duration procedures. This cushion set uses medium-firm, high-density foam to deliver steady, reliable support throughout routine surgical cases. The conductive vinyl cover resists fluids and static while meeting O.R.

safety standards. Facilities choose this standard set when they do not need advanced pressure relief. Because the pad set is 2 inches thick, it holds its shape well through daily use.

Over time, a worn or flattened pad can affect patient positioning. Replacing it brings your Skytron 6300 table back to full working condition, without the cost of a whole new unit.
