

Stryker Flat Eye Stretcher Headrest Pad Replacement – New

Stock Photo – Options May Vary

FACTORY NEW

Stryker Flat Eye Stretcher Headrest Pad Replacement. The Stryker Flat Eye Stretcher Replacement Pad is a new, direct-fit pad for Stryker 1068, 1069, 1079, and 1089 eye surgery stretchers. The flat surface provides even support across the patient's head during ophthalmic procedures, offering a simple, reliable alternative to contoured designs.

Additionally, the convenient velcro attachment makes installation and removal quick and secure. Eye surgery stretchers require dependable headrest support, and this flat pad delivers consistent, uniform cushioning throughout longer procedures.

Furthermore, this pad is available in black, it comes in 2", 3", and 4" thicknesses, letting your facility match the original stretcher configuration or choose the height your clinical team prefers for patient comfort.
