

Northstar Beach Chair Pad Set

Stock Photo - Options May Vary

FACTORY NEW

NorthStar Beach Chair Replacement Pad Set brings worn, torn, or discolored pads back to like-new condition. Are the pads on your NorthStar beach chair showing their age?

The NorthStar beach chair shoulder surgery attachment (POS-2000) remains widely used and is known for its innovative design and ease of use. Don't replace a perfectly working beach chair just because you can't source replacement pads.

This 4-piece pad set replaces the pads on the NorthStar POS-2000 so that you can restore the chair for your next procedure. In addition, the fluid-resistant, latex-free material wipes clean easily and holds up to daily use.

FEATURES

- 4 piece pad set for the NorthStar POS-2000
- Includes forehead restraint strap, mono head pad, center pad, and 2 side pads
- Fluid resistant material
- Latex free
- Easy to clean
