Stryker InTouch ICU Hospital Bed – Refurbished

Stock Photo – Options May Vary

FULLY REFURBISHED · CLINICALLY CERTIFIED

Stryker InTouch ICU Hospital Bed – Refurbished. Elevate patient care with the Stryker InTouch Critical Care Bed. It combines smart design with advanced technology to enhance safety, mobility, and caregiver efficiency.

Intuitive controls on all sides, a powerful touch screen interface, and one-touch electric brake put full control at your fingertips. Moreover. this makes for better outcomes and faster response times.

Support early mobility with a 16″ low bed height, independent knee gatch, and a one-touch cardiac chair. Furthermore, this refurbished hospital bed's siderails encourage proper transfer techniques and a safe nose-over-toes position. Additionally, features like protocol reminders, sound therapy, and spoken language translations ensure comfort and communication throughout care.
