Stryker S3 3005 MedSurg Hospital Bed – Refurbished

Stock Photo – Options May Vary

FULLY REFURBISHED · CLINICALLY CERTIFIED

Stryker S3 MedSurg Hospital Bed, Model 3005. The S3® bed uses modern technology and smart design to improve patient care and make work easier for caregivers.

This fully electric bed works well in many hospital settings. It features one-handed side rails and simple controls, making position changes easy for staff and comfortable for patients.

Stryker Secure 3 (Model 3005) Features: Key features include a low bed height for safer transfers, a retractable bed frame for comfort during repositioning, and removable head and footboards with integrated control panels. Additionally, these design elements make caregiving more efficient and patient experiences more comfortable.
