

Blickman Kennedy Cabinet | 7956SS

Stock Photo - Options May Vary

FACTORY NEW

The Blickman 7956SS Kennedy Cabinet is a freestanding storage solution with separate upper and lower sections designed for secure organization of medical supplies, instruments, and narcotics. The upper section features three glass shelves, locked glass swinging doors, and an independently locked narcotic locker for controlled substance storage. The lower section includes three stainless steel drawers and one compartment with a removable stainless steel shelf.

Constructed from durable stainless steel, this cabinet is built to withstand the demands of busy healthcare environments. The combination of glass shelves in the upper section and drawers in the lower section provides both visibility for frequently accessed items and secure hidden storage for sensitive materials. The flat top design and glides allow for flexible placement and easy mobility when needed.

FEATURES

- Separate upper and lower sections.
- Locked glass swinging doors on two hinges
- One welded, independently locked narcotic locker
- Deep lower section with 3 Stainless Steel Drawers
