Blickman Walter Cabinet | 7959SS

Stock Photo – Options May Vary

FACTORY NEW

Blickman 7959SS Walter Cabinet. Blickman's stainless steel cabinets feature a seamless welded face that prevents dirt collection and provides long-lasting durability with unparalleled strength and corrosion resistance. Their freestanding design rests on four legs with glides or can be mobilized on casters for easy movement.

The Walter cabinets provide maximum storage room for large equipment. These cabinets are designed for efficiency and easy access, with adjustable shelving to accommodate various sizes of tools and supplies.

The robust construction ensures stability, even in high-traffic environments. The smooth, easy-to-clean surface helps maintain a sterile and organized workspace, ideal for medical, laboratory, or industrial settings.
