GE MAC 5000 EKG Machine – Refurbished

Stock Photo – Options May Vary

FULLY REFURBISHED · CLINICALLY CERTIFIED

The GE MAC 5000 EKG Machine offers advanced features backed by one of the most comprehensive sets of proven algorithms in the industry. It is part of GE Medical's networked diagnostic tools designed to improve workflow efficiency and staff productivity.

Additionally, the GE MAC 5000 supports advanced ECG applications with high performance and simple operation. As a result, its user-friendly design makes it accessible to many different users.

The MAC 5000 features advanced Marquette algorithms that support true 12-lead ECG analysis and interpretation, P-wave signal averaging, late potential analysis, ACI-TIPI, and gender-specific criteria within the 12SL™ system for improved arrhythmia detection.
