Oakworks 3050 Series Procedure Chair

Stock Photo – Options May Vary

FACTORY NEW

OakWorks 3050 Series Procedure Chair. The Oakworks 3050 is a high-quality, U.S.-made chair built for comfort and easy use in medical and beauty settings.

Smooth electric controls and ADA-compliant low height make positioning easy and improve patient access on and off the chair. Adjustable armrests add flexibility, making it great for Med Spas, injectables, microneedling, and many other treatments.

This chair supports a robust 550-pound bariatric weight capacity, making it suitable for medical weight loss and wellness practices. Its sturdy build ensures it can handle diverse patient needs while maintaining safety and comfort.
