

Harloff Thin Profile Narcotics Cabinet | NC16A12-DT2

Stock Photo - Options May Vary

FACTORY NEW

The Harloff NC16A12-DT2 is a space-saving narcotics cabinet designed for secure storage of DEA-controlled substances. Constructed from heavy-duty 20-gauge steel with dual inner and outer locking doors, it features pick-resistant tubular locks with four keys per lock. The cabinet measures 16" H x 12" W x 4" D, making it ideal for facilities with limited space.

The cabinet includes two adjustable or removable shelves that can be positioned in four different locations, providing flexible storage for up to three rows of medications. Full-length stainless steel pinned door hinges prevent pin removal, and the durable heat-sealed powder coat finish ensures long-lasting protection.

Pre-drilled mounting holes and included hardware allow for easy installation on walls, floors, or other solid surfaces. The cabinet fully meets DEA requirements for storing Schedule I and II controlled substances when properly mounted and used in accordance with applicable regulations.
