

Harloff Tall Stainless Steel Narcotics Cabinet | NCSS24C16-DT2

Stock Photo - Options May Vary

FACTORY NEW

The Harloff Tall Stainless Steel Narcotics Cabinet NCSS24C16-DT2 provides secure, hygienic storage for high-risk medications in healthcare settings. This cabinet features inner and outer doors, each with a high-security tubular lock, ensuring double-lock protection and restricted access. Constructed from durable stainless steel, it is easy to clean and ideal for environments where sterilization is critical.

The cabinet measures 24" H x 16" W x 8" D and includes two shelves that can be adjusted or removed and positioned at up to ten different heights. It comes with predrilled holes and all necessary hardware for easy wall mounting.

The NCSS24C16-DT2 fully meets DEA requirements for storing Schedule I and II controlled substances. The cabinet must be properly secured to a solid, non-mobile surface, and current DEA guidelines should be followed to maintain compliance in your facility.
