

Harloff Large Narcotics Cabinet | NC30D24-ST2

Stock Photo - Options May Vary

FACTORY NEW

The Harloff Large Narcotics Cabinet NC30D24-ST2 provides secure storage for controlled substances in healthcare facilities. Constructed from heavy-duty 20-gauge steel, the cabinet features a single outer door with two high-security, pick-resistant tubular locks that provide enhanced protection for addictive or high-risk medications.

The cabinet measures 30" H x 24" W x 10" D and is designed for vertical wall mounting using included hardware and predrilled back holes. Interior storage includes one fixed shelf and one adjustable or removable shelf, allowing flexible organization for various medication sizes.

This cabinet meets DEA guidelines for storing Schedule III, IV, and V controlled substances when housed within a secured outer structure. It is not recommended for Schedule I or II storage unless additional DEA requirements are met. Consult current DEA regulations to ensure compliance with your facility's needs.
