Bair Hugger 505 Patient Warming System – Refurbished

Stock Photo – Options May Vary

FULLY REFURBISHED · CLINICALLY CERTIFIED

Bair Hugger 505 Patient Warming System – Refurbished. The 3M Bair Hugger 505 sets the standard in forced-air warming, offering safe, quiet, and effective temperature control. Furthermore, its compact, lightweight design makes it perfect for busy healthcare environments, ensuring easy transport and quick setup.

Adaptable to any space, it works both freestanding or mounted on various supports, delivering reliable warmth from operating rooms to recovery wards. This versatile unit offers more than just patient warmth. It's the only forced-air system offering integrated fluid warming, providing a comprehensive, cost-effective temperature management solution.

Additionally, the Bair Hugger 505 operates quietly, providing optimal warmth without disrupting sensitive environments like operating rooms.
