Riester Ri-Focus® LED Headlight

Stock Photo – Options May Vary

FACTORY NEW

The Riester Ri-focus® LED Headlight delivers wireless, high-performance light for medical professionals. It is developed and manufactured in Germany for trusted quality and long service life. In addition, the advanced LED creates bright, focused light with very low heat.

As a result, you get clear visibility with less energy use. The LED lasts up to 50,000 hours, which supports years of clinical use. Overall, this headlight provides strong, reliable performance for daily examinations and procedures.

The Ri-focus® LED supports surgical procedures with clear, precise light. It helps you see fine details during every step. The focusable beam adjusts from 40 mm to 200 mm at a 400 mm working distance, giving you full control.
