Medical Illumination MI-1000 LED Surgical Light Wall Mounted | XLD-WM

Stock Photo – Options May Vary

FACTORY NEW

The Medical Illumination MI-1000 LED Surgical Light Wall-Mounted. The MI-1000 wall-mounted surgical light offers flexible lighting with superior shadow control and tissue rendition. Its large LED array provides bright, white light for exams and minor procedures.

Furthermore, it is available in single-ceiling, dual-ceiling, wall, and portable mount options. The XLD ensures durability and longevity. A battery backup option is also available, making it an affordable and reliable choice for medical settings.

Additional Features: This Reliable Lighting equipment comes with a limited 3-year warranty. Long-life LEDs are rated up to 50,000 hours and are convenient as there are no replacement bulbs or fuses necessary, resulting in lower overall maintenance costs.

FEATURES

- Very Low Heat
