Medical Illumination System Two LED Duo w/HD Video Camera | XLDS-S2VC

Stock Photo – Options May Vary

FACTORY NEW

Medical Illumination System Two LED Duo w/HD Video Camera: XLDS-S2VC. This LED surgical light delivers up to 130,000 lux for clear, bright viewing. In addition, it reduces shadows and spreads light evenly across the field. Surgeons see details with ease during every procedure.

The built-in HD camera also supports video recording and training. The XLDS-S2VC surgical light helps lower energy use and cuts costs over time. It uses less power than older halogen lights while still producing strong light.

Moreover, the long-lasting LEDs reduce the need for frequent replacements. The adjustable arm allows easy positioning for better control.
