

# Conmed Universal ESU Cart – Refurbished

Stock Photo - Options May Vary

## FULLY REFURBISHED · CLINICALLY CERTIFIED

The Conmed Universal Electrosurgical Cart is a mobile storage solution designed to support daily clinical workflows in surgical and procedural settings. It accommodates most Conmed electrocautery units, including the Sabre Genesis and System 2450, helping medical teams organize essential devices and keep tools within easy reach. The cart's compact design enhances room flow while reducing clutter.

The cart serves general practices, surgery centers, and emergency departments. Its strong frame supports electrocautery units and additional medical equipment, with a compact profile that allows smooth movement through tight spaces. Staff can handle rapid-response situations with greater confidence and efficiency.

Measuring 20.5" x 16" x 31", the cart allows convenient placement beside procedure tables and workstations. Sturdy shelves with raised edges keep equipment secure during transport, while ergonomic handles improve maneuverability and reduce strain. Every feature supports the demands of medical environments.

## FEATURES

- Compatible with most Conmed ESUs, including Sabre Genesis and System 2450
- Compact footprint (20.5" x 16" x 31") for easy placement
- Strong frame with raised-edge shelves for secure equipment support
