

# Bovie 3350, 2350, 1250 ESU Cart - New

**\*Stand Only**  
**Equipment not included**

*Stock Photo - Options May Vary*

## FACTORY NEW

The Bovie Medical BV-IDS-CS2 is a 35" mobile cart designed for the A3350, A2350, and A1250S electro-surgical generators. It features a compact 16" x 20" footprint that fits easily into tight operating rooms while providing convenient access to electro-surgical equipment. The stable frame maintains consistent support during active use and allows smooth movement and quick positioning for any surgical setup.

The cart's non-sterile design integrates seamlessly with standard operating room routines and works well with other equipment. Its durable, medical-grade construction supports long-term use in demanding clinical environments. The cart connects easily to compatible generators and helps teams maintain focus on patient care.

The BV-IDS-CS2 is ideal for hospitals, outpatient centers, and surgical practices that rely on Bovie electro-surgical systems. It enhances mobility, improves organization, and provides reliable support throughout busy clinical environments.
