

Bovie Specialist Pro A1250-S Cart - New

Stock Photo - Options May Vary

FACTORY NEW

The Bovie Specialist Pro A1250-S Cart (ESMS2) provides organized support for electrosurgical setups and works seamlessly with Bovie A1250 and A1250S electrosurgical systems. The cart measures 18.9 inches wide, 19.6 inches deep, and 32 inches high, fitting most operating rooms with ease. Its compact footprint improves workflow and frees space around the procedure table while the sturdy frame handles daily clinical demands.

The design includes three shelves that hold the electrosurgical unit, printer, and important supplies. Each shelf supports quick access and clear visibility, allowing clinicians to move more efficiently and maintain consistent control of their equipment. The open layout helps staff restock items without delay.

Clinicians choose this cart for durability, simplicity, and excellent compatibility with Bovie systems. It enhances system organization, improves equipment placement, and strengthens overall procedural convenience.
