FACTORY NEW

Bovie Derma 102 High-Frequency Desiccators w/Bipolar: D102. Most procedures a High-Frequency Desiccator performs utilize ten watts of power or less.

The Derm 102 is an economical, 10-watt high-frequency desiccator, thoughtfully designed to allow practitioners to perform in-office, minor skin procedures such as removing skin tags, benign lesions, and premalignant lesions. Additional Features: For the practitioner utilizing bipolar electrosurgery, Bovie offers the Derma 102 High-Frequency Desiccator with 10 watts of bipolar power, adjustable in 1/10th-watt increments.

Furthermore, to utilize this feature, the A827V* bipolar cable, bipolar forceps*, and footswitch activation are required. The Derma 102 unit features a large, bright LED display for excellent visibility across the procedure room.
