

Aaron Bovie Electrosurgical / Desiccator footswitch for Model 950 and 1200 | A1203

Stock Photo - Options May Vary

FACTORY NEW

The Aaron Bovie Footswitch Model A1203 is designed for use with Electrosurgical Unit/Desiccator Models 950 and 1200. It provides hands-free control to enhance precision and efficiency during surgical procedures.

The footswitch features a durable, reliable design that ensures smooth operation with quick activation and deactivation of the electrosurgical unit. This enables seamless workflow in the operating room.

Easy to operate, the footswitch offers both convenience and safety for medical professionals working in high-pressure surgical environments.
