

Aaron Bovie Footswitch for ESU / Desiccator Model 900 and 1200 | A803

Stock Photo - Options May Vary

FACTORY NEW

Aaron Bovie Foot Switch Model A803 is designed for use with Electrosurgical Unit/Desiccator Models 900 and 1200. This footswitch enables hands-free operation, offering precise control during electrosurgical procedures. Its ergonomic design ensures comfort and ease of use, allowing the surgeon or medical staff to focus on the procedure without distraction.

Built for durability and reliability, the footswitch helps maintain consistent performance in demanding surgical environments. The hands-free operation enhances workflow efficiency and supports patient safety during electrosurgical procedures.
