

Aaron Bovie Mobile Stand for 1250, 2250 and 3250 ESU | BV-IDS-CS

Stock Photo - Options May Vary

FACTORY NEW

The Aaron Bovie Mobile Stand (BV-IDS-CS) is a dedicated support system designed for electrocautery units. It is compatible with models A1250U, A1250S, A2250, A3250, A2350, A3350, IDS-210, IDS-310, and IDS-400.

The stand measures 16" wide x 20" deep x 35" high, providing a compact footprint suitable for operating rooms and surgical suites. Its mobile design enables easy repositioning of equipment during procedures.

This stand enhances workflow efficiency by improving accessibility and organization of electrocautery generators. The unit facilitates safe equipment placement and movement in clinical environments.
