

Aaron Bovie Mobile Stand for model 800, 900 and 950 ESU | A812

Stock Photo - Options May Vary

FACTORY NEW

The Aaron Bovie Mobile Stand Model A812 is designed specifically for ESU/Desiccator models 800, 900, and 950. It provides enhanced mobility and stability, ensuring secure positioning of equipment during procedures while allowing for easy adjustments in various clinical settings.

The stand features durable construction and a compact design that makes it both practical and reliable for everyday use in medical environments. Its robust build quality ensures long-term performance and dependability.

The A812 improves equipment accessibility, keeping your ESU well-supported and easily accessible throughout medical procedures. The stand's design facilitates proper positioning and workflow efficiency in the operating room or clinical workspace.
