Alaris Medley 8015 + 8100 Combo Infusion Pump System – Refurbished

Stock Photo – Options May Vary

FULLY REFURBISHED · CLINICALLY CERTIFIED

Alaris Medley 8015 PC + 8100 Combo Infusion Pump System: Refurbished. The most popular combination of pump + controller. In addition, the Alaris® Medley System can be used for neonatal, pediatric, and adult patients.

Furthermore, it allows for up to 4 detachable infusion or monitoring modules. Safety is key, and the Guardrails® Software helps minimize dangerous IV medication errors. Additionally, the software tracks and measures system performance as well as acts as an aid in assisting national safety standards. Furthermore, this IV pump combo is extremely flexible and can come in a variety of configurations.

The 8015 is the controller, the “brain” of the system.
