Braun Infusomat Space – Refurbished

Stock Photo – Options May Vary

FULLY REFURBISHED · CLINICALLY CERTIFIED

Braun Infusomat Space – Refurbished. The Infusomat Space volumetric infusion pump delivers accurate medication and fluid administration in modern healthcare environments. Clinicians rely on this compact pump for adult, pediatric, and critical care infusion therapy. Moreover, the lightweight design supports easy mobility between departments.

As a result, hospitals improve workflow efficiency in ICUs, operating rooms, emergency departments, and infusion centers. Additionally, the refurbished Braun Infusomat Space pump offers an intuitive interface that simplifies programming and daily operation. The integrated drug library supports hundreds of medications with customizable limits and clinical guidance.

Furthermore, advanced therapy modes allow clinicians to tailor infusion delivery to patient needs.

FEATURES

- Lightweight and compact design for easy transport
- Modular system for stacking multiple pumps
- Integrated drug library with customizable safety limits
- Multiple therapy modes including dose rate and intermittent infusion
- Anti-free-flow safety mechanism for infusion protection
