Blickman Solution/Blanket Warming Cabinet | 7924TG

Stock Photo – Options May Vary

FACTORY NEW

Blickman Solution/Blanket Warming Cabinet: 7924TG – New. This warming cabinet stands 74.5 inches tall and has two separate heated sections. Your team can warm blankets and solutions at the same time, which saves time during busy shifts.

In addition, a key-and-passcode lock keeps temperature settings secure from unwanted changes. The 7924TG lets you set any temperature in either section. Meanwhile, the digital keypad makes it easy to enter exact settings.

Lights and alarms warn staff if it gets too hot, and an auto shut-off adds extra safety. The doors close on their own and seal tight with a magnet to keep heat in.
