Baxter AS50 Syringe Pump – Refurbished

Stock Photo – Options May Vary

FULLY REFURBISHED · CLINICALLY CERTIFIED

The Baxter AS50 Syringe Pump delivers accurate and reliable infusion support for a wide range of medical settings. Each unit is completely refurbished and biomedically inspected to ensure top performance and patient safety.

This compact pump is ideal for use in hospitals, clinics, and transport environments. Key features include a configurable drug library, syringe plunger detection, and a clear backlight display for easy operation in any lighting condition.

These advanced functions support precise medication delivery and help reduce programming errors. Furthermore, the AS50 supports multiple syringe sizes and offers flexible infusion options for various clinical needs.
