Medfusion 3500 Syringe Pump – Refurbished

Stock Photo – Options May Vary

FULLY REFURBISHED · CLINICALLY CERTIFIED

Medfusion 3500 Syringe Pump – Refurbished. The Medfusion 3500 continues the Medfusion™ legacy, delivering over 15 years of top-tier performance. Unlike standard pumps that simply complete the task, the 3500 sets the gold standard in precision and reliability. As a result, clinicians rely on it for accurate medication delivery in both adult and pediatric care.

Its design supports safe, efficient drug administration in critical care, anesthesia, and neonatal settings. Furthermore, the Medfusion 3500 offers advanced features that enhance safety and workflow. It includes programmable dose limits, rapid occlusion detection, post-occlusion bolus reduction, and easy integration with patient data systems.

In addition, the pump's user-friendly interface simplifies operation for healthcare professionals.

FEATURES

- Completely Refurbished
- Programmable Dose Limits
- Rapid Occlusion Detection
- Post-Occlusion Bolus Reduction
- Connectivity with Patient Data Management Systems

SPECIFICATIONS

- Model: 3500
- Internal Battery Life Capacity: Up to 10 hours
- Accepts all syringe sizes cc - 60cc
