

Edan iM80 Patient Monitor – New

Stock Photo – Options May Vary

FACTORY NEW

Edan iM80 Patient Monitor – New. The Edan iM80 Patient Monitor offers a wide range of parameters, from invasive blood pressure to cardiac output. Additionally, it also covers capnography and anesthesia gases.

Furthermore, this versatility helps meet many clinical needs across different settings, including general wards, cardiac units, ICUs, and operating theaters. Moreover, the iM80 comes with standard parameters such as 3- or 5-lead ECG, RESP, and NIBP. Also, it includes Edan SpO2, dual TEMP, PR, and HR.

As a result, staff get a full picture of patient status in one place. Specifically, give us a call to discuss other available options for this monitor.
