Edan iM50 Patient Monitor with CO2 – New

Stock Photo – Options May Vary

FACTORY NEW

Edan iM50 Patient Monitor with CO2 – New. The iM series offers a full range of parameters, from invasive blood pressure to cardiac output, and from capnography to anesthesia gas.

As a result, it fits many clinical settings and diverse patient needs. This iM50 includes the Edan G2 CO2 (Sidestream) module, built with a strong water trap design for accurate readings.

In addition, its iCARB algorithm uses smart CO2 pseudo wave identification to keep results steady and clear.
