Mindray DPM7 Patient Monitor – Refurbished

Stock Photo – Options May Vary

FULLY REFURBISHED · CLINICALLY CERTIFIED

Mindray DPM7 Patient Monitor – Refurbished. The Mindray DPM7 Patient Monitor is a strong, multi-parameter monitor built for ICU or OR use. Additionally, it includes a unique split-screen feature.

Furthermore, this lets staff view real-time data alongside a 5-lead ECG for easy monitoring. Moreover, the DPM7 features a 17-inch high-resolution touchscreen for easy navigation and full patient checks. As a result, staff can quickly review key data during busy shifts.

Specifically, it monitors arrhythmias, 3-, 5-, and 12-lead ECGs, RESP, NIBP, ST analysis, CO, and CCO/SVO2. In addition, auto-ID and data storage help staff work faster and keep better records.
