

Datascope Trio Patient Monitor – Refurbished

Stock Photo – Options May Vary

FULLY REFURBISHED • CLINICALLY CERTIFIED

Mindray Datascope Trio Patient Monitor – Refurbished. The Mindray Datascope Trio Patient Monitor is a flexible, low-cost option for patient monitoring. Additionally, its compact design works well for both bedside and transport use.

Furthermore, staff can rely on real-time monitoring of key vital signs in many settings, from hospitals to emergency response. Also, this makes it a good fit for fast-paced, demanding environments. Moreover, this monitor comes with an 8.4-inch color display for clear, accurate readings.

As a result, staff can quickly check patient status without extra steps. Specifically, it covers ECG, SpO2, NIBP, impedance respiration, and temperature readings. In addition, these features give steady, reliable data for timely care.

FEATURES

- 8.4" TFT Color Display
