

Steris 5085 Standard Series Replacement Pad Set

Stock Photo - Options May Vary

FACTORY NEW

The Steris 5085 Standard Series Replacement Pad Set is a 3-piece cushion set designed for low-risk patients and short-duration procedures in general operating room environments. It provides reliable support and essential comfort at a cost-effective price point for facilities performing shorter cases.

The pad set features 2" thick medium-firm high-density foam that offers stable patient positioning during brief procedures. The electrically conductive vinyl cover reduces static buildup and withstands daily cleaning with hospital-grade disinfectants.

The set is easy to install, lightweight, and built for routine operating room use. It combines dependable support with practical performance suitable for standard surgical applications.
