

MCM 157 Replacement Pads | Case of 12 | MCM 156

Stock Photo - Options May Vary

FACTORY NEW

The MCM 156 Replacement Pads are designed specifically for use with the MCM 157 arm and hand table. Each box contains 12 durable pads constructed from soft yet resilient materials that provide consistent patient support during surgical procedures.

These pads maintain patient comfort and hygiene in surgical settings while simplifying cleanup and replacement. The materials are engineered to withstand repeated use while preserving their supportive properties throughout the product lifecycle.

The MCM 156 offers an economical solution for facilities that require regular pad replacement, enabling hospitals and surgical centers to maintain adequate backup supplies without significant expense.

**Brochure and images are a general overview of the product. Actual product options may vary.*
