

## MCM Stirrup Cart | MCM 148

Stock Photo - Options May Vary

### FACTORY NEW

The MCM 148 Stirrup Cart is a stainless steel medical cart designed for reliable performance in busy clinical environments. It features two different-sized hooks to accommodate both standard and bariatric stirrups, along with an accessory rail for clamps and other tools. The sturdy base provides storage and transport space for additional accessories.

Equipped with scuff-resistant casters, the cart moves smoothly across clinical floors. It assembles quickly with just two screws, minimizing setup time. The compact design fits efficiently in tight spaces, making it suitable for hospitals, clinics, and surgical centers.

The durable stainless steel construction resists corrosion and wear, ensuring long-lasting use. The cart supports organized workflows and helps medical teams maintain efficiency in any healthcare environment.
