

MCM Candy Cane Stirrup | MCM 150

Stock Photo - Options May Vary

FACTORY NEW

The MCM 150 Candy Cane Stirrup is manufactured from durable 304 stainless steel for long-lasting performance in clinical environments. Its integral clamp allows for easy height adjustments between 23 and 41 inches, accommodating various patient needs and procedural requirements.

The stirrup features a large 8-inch arc that offers enhanced leg clearance and flexibility during procedures. It supports up to 60 pounds and includes a 1-inch-wide cotton strap that fits standard 9-inch loops to comfortably secure the patient.

The unit mounts easily using a Standard Clark Socket (sold separately). Compact and adjustable, the MCM 150 is designed for use in surgical and prep settings.

SPECIFICATIONS
