

Replacement Pad for Stryker 1080 Stretcher - 84"L x 26"W x 2" H

Stock Photo - Options May Vary

FACTORY NEW

Replacement pad designed for the Stryker 1080 stretcher. This single-piece pad features 2 inches of cushioning with rounded corners for comfort and safety. The pad measures 84 inches in length, 26 inches in width, and 2 inches in thickness.

The pad is constructed to provide full-length C-arm access, making it suitable for fluoroscopic and imaging procedures. It is available in black and is sold as a pad only; the stretcher base is not included.

This replacement pad is ideal for facilities needing to maintain or upgrade their Stryker 1080 stretcher systems with quality padding that meets clinical requirements.

SPECIFICATIONS
