

SchureMed Spine Frame Pad Set | 508-0472

Stock Photo - Options May Vary

FACTORY NEW

The SchureMed Spine Frame Pad Set, model 508-0472, includes tapered adjustable pads designed to ensure optimal patient safety and comfort during spine surgeries. These pads provide support and stability, allowing for precise patient positioning during procedures.

Sold in pairs, the pads are an essential addition to the SchureMed Spine Frame. The tapered design accommodates various patient anatomies while maintaining secure positioning throughout the surgical procedure.

The pad set enhances the functionality and comfort of surgical setups. Note that the pads are compatible with the SchureMed Spine Frame, which is sold separately.
