

Blickman (Paul) Instrument and Supply Cabinets | 7970SS

FACTORY NEW

Blickman 7970SS - (Paul) Instrument and Supply Cabinets. The Blickman 7970SS is designed to offer optimal storage and organization in clinical, laboratory, or industrial environments.

These cabinets feature five polished glass or stainless steel shelves, providing ample space for instruments and supplies. The shelves are adjustable every 1/4 inch, allowing for customized organization based on the specific needs of the user.

The sloping top of the cabinet is a practical design feature that prevents dust accumulation, ensuring that stored items remain clean and accessible. For added security, the cabinet comes with a door latch that locks, keeping the contents safe and secure.
