

Blickman Irrigation Stand/Tower | IVT-2

Stock Photo - Options May Vary

FACTORY NEW

Blickman IVT-2 - Irrigation Stand/Tower. Blickman provides you with an affordable and more efficient alternative for fluid-intensive IV irrigation procedures. The revolutionary -IVT Irrigation Safety Systems ensure continuous fluid delivery by offering infinitely and independently adjustable heights for up to eight 3 or 5-liter IV bags.

They also rely upon dependable gravity flow, thus making use of standard IV tubes. Their one-handed operation lets nurses attach IV bags at comfortable heights and raise them up to eight feet easily. Pushing down on Squeeze Release handles raises bags, providing an ergonomic solution.

This design meets OSHA standards and reduces back injury risks.
