Blickman Mini Case Cart | CCC3-17

Stock Photo – Options May Vary

FACTORY NEW

Blickman CCC3-17 – Mini Case Cart. Blickman's Mini Case Cart is a versatile solution designed for use in labor and delivery, outpatient surgery, or any situation where a smaller cart is preferred for transferring instruments and supplies between areas. Durable construction with 18 gauge steel body, doors, and top; 11 gauge steel chassis for added strength and stability.

The cart features a 14 gauge bumper channel, ensuring protection against impacts and providing extra resilience in high-traffic environments. This compact yet robust design makes the Blickman Mini Case Cart an ideal choice for hospitals and surgical centers where space and functionality are essential.
