Enthermics Blanket Warming Cabinet | EC2060

Stock Photo – Options May Vary

FACTORY NEW

The Enthermics EC2060 Blanket Warming Cabinet offers an impressive 20.6 cubic feet of internal capacity, perfect for storing and warming blankets. Equipped with windowed doors and deluxe electronic controls, this unit ensures both convenience and safety.

A 24-hour timer with a single programmable “off” period adds ease of use, allowing for flexible blanket warming. Designed to enhance patient comfort, the EC2060 cabinet effectively elevates blanket temperatures.

Its robust stainless steel exterior ensures durability, making it ideal for frequent use in medical or healthcare settings. The heavy-duty door is built to withstand constant handling, while the windowed design allows for quick inventory checks without the need to open the cabinet.
