Pedigo ivNow3 Fluid Warmer

Stock Photo – Options May Vary

FACTORY NEW
Pedigo ivNow3 Fluid Warmer – New. This warmer heats and holds IV, injection, and irrigation solutions at the right temperature before use. It warms three bags at once, so staff can keep fluids ready without waiting.

What The ivNow3 Warmer Offers Three separate warming chambers hold three solution bags at the same time. Each chamber fits 0.5-, 1-, 2-, and 3-liter bags for even heating. Each chamber has its own controls and LED temperature display.

The display can show Celsius or Fahrenheit. A green ready light shows when fluid reaches the set temperature. A built-in timer tracks how long each bag has been warmed.

FEATURES

• Rapidly warms and maintains the temperature of injection, intravenous, and irrigation solutions prior to use
• Specially contoured warming modules cradle 0.5-, 1-, 2-, and 3-liter solution bags
• Three-pod configuration warms up to three bags simultaneously
• Stackable, field-customizable design, pods can be added or removed as needed
• Flexible installation for countertop, wall, or boom mounting (mounting plate included)

SPECIFICATIONS

• P-2303-A
• Heating Performance: Warms fluids to 104 °F (40 °C) in 30 minutes or less
• Capacity: Holds three (3) IV bags, 0.5 – 3 L each
• Warming Output: Delivers approximately 57 – 180 liters of warmed fluid in a 12-hour period
• Temperature Accuracy: Maintains within +0/-2 °C (+0/-3 °F) of set point
