

Blickman Stainless Steel Space-Saver Hamper w/ Lid | 2301SS

Stock Photo - Options May Vary

FACTORY NEW

The Blickman 2301SS is a space-saving stainless steel hamper designed for hands-free loading and unloading via a convenient non-slip pedal. All-stainless steel construction provides durability, while bumper guards on the lid and legs protect equipment and walls from damage. A solid shelf on the bottom provides extra security when handling heavy loads.

The hamper features a pneumatic top mechanism that operates quietly and allows for hands-free operation with pin-drop control. The unit travels effortlessly on three 3-inch hard rubber swivel casters, enabling easy mobility throughout medical facilities.

The triangular design maximizes space efficiency in operating rooms and other healthcare environments. This model is built to withstand the demands of high-volume medical linen handling and comes with a limited lifetime warranty.
