Enthermics 6-Blanket Warming Cabinet | DC250

Stock Photo – Options May Vary

FACTORY NEW

Enthermics DC250 6-Blanket Warming Cabinet – New. This countertop cabinet is a great fit for labor and delivery rooms, ICUs, and NICUs. It has no moving parts, so it runs quietly and lets staff focus on patient care.

In addition, nurses and aides can place it right where they need it. Soft blue lights inside the cabinet create a calm feel for patients. Meanwhile, WarmSafe zone heating warms blankets fast and keeps the heat even.

The heated shelves also spread warmth across the whole cabinet, so staff can count on every blanket being ready.

FEATURES

• LED interior lighting casts a comforting blue glow with two (2) different intensity settings and off-mode
• In the event of a power failure, the cabinet will remember its programming and begin to operate as before when power is restored
• A warming shut-off system, separate from the electronic control, prevents overheating
• The access point and the plug have been added to the back panel to allow the appliance owner to add their data logger or temperature management hardware
• Single-chamber warming cabinet White epoxy-coated steel exterior casing and interior insert
