

Burton Super Bright Spot®, w/Extension Arm & Universal Wall Mount | SB40W

Stock Photo - Options May Vary

FACTORY NEW

Burton SB40W Super Bright Spot® w/Extension Arm & Universal Wall Mount. Burton's Super Bright Spot® uses a 20-watt halogen bulb and a unique optics system. Burton's Super Bright Spot® is virtually heat-free.

The Super Bright Spot® is superior to fiber-optic units in value, durable operation, large 4"-5" spot size, and long 1,000-hour bulb life. Additional Super Bright Spot® Features:
Due to its proven reliability, Burton offers an extraordinary five-year warranty on the Super Bright Spot®.

The Super Bright Spot® is available with a sturdy, sag-resistant gooseneck, a floor stand, or a universal wall mounting system for tighter spaces.
